ELITE SPORT STORY

BORN FROM THE IDEA OF A FATHER WHO SAW THE NEED OF HIS SON AND OTHER GOALKEEPERS FOR QUALITY, LONG-LASTING GOALKEEPER GLOVES, ELITE SPORT IS PROUD TO BE A LEADING SUPPLIER OF GOALKEEPER GLOVES SINCE 2008.

Specializing in setting the industry standard with innovations and new designs, Elite Sport is one of the most recognizable goalkeeping brands in the world today.

Elite Sport has grown to become one of the premier brands for goalkeeper products and equipment in the world. With being listed in 20+ countries and 5 continents, Elite Sport has become the number one choice for hundreds of 1st division professional goalkeepers, tens of thousands of amateur and aspiring young goalkeepers, as well as leading goalkeeper coaches.

With Elite Sport's excellent production and design team, we have been able to deliver affordable, elite-standard goalkeeper gloves that are available for everyone.

OUR TECHNOLOGY

SEIZE THE MOMENT WITH GRIP THAT WON'T SLIP.

Elite Sport uses only specially-formulated and patented latex to achieve unrivalled grip, comfort and flexibility, without sacrificing durability. All Elite goalkeeper gloves are match-ready, with our high-quality latex on the palm, backhand and wrist strap.

PALM LATEX:

- Ultra GTech Pro
- EsTec Aqua 5007B
- ES Centum +
- ES-V Game Line
- ES Super Control

BE IMPENETRABLE. WE'VE GOT YOUR BACKING.

All Elite sport gloves have 4 or 5 mm of cushioned backing foam, combined with Elite Sport's proprietary latex and high tech fabric.

Gloves are sufficiently reinforced in the Shock Zone to protect the hands when punching and blocking incoming balls. Elite Sport's proprietary latex ensures they have extended durability with frequent, aggressive use.Some Shock Zones are flat, while others feature Elite Sport's specially-constructed 3D embossing.

EVEN THE BEST DEFENSE NEEDS REINFORCEMENTS.

Goalkeepers' fingers can be vulnerable to impact, so Elite Sport gloves defend you, while you defend the goal.

Elite gloves are constructed with either 4 or 5 removable finger supports (spines) produced to safeguard and provide maximum protection... the goalkeeper's armor.

THE WINNING GOALKEEPER MAY BE THE ONE WHO REACHED JUST A BIT FARTHER...

To ensure Elite Sport gloves stretch comfortably with the hands, not against them, there are 5 to 7 elastic panels of material in every glove, depending on the model.

COOL GLOVES. COOL HANDS.

Because goalkeepers already have plenty of reasons to sweat, Elite Sport has developed a high-tech fabric that features Air Ventilation Management AVM™ to enable air circulation within the gloves. When the hands stay cool, the head can stay cooler.

FLASH (SPEED)

HYBRID

NEGATIVE

NROLL

ROLL

FLAT

DETAILS IN THE PALM OF YOUR HANDS.

Every surface of Elite Sport Gloves is critical to the goalkeeper's style and technique. So, naturally, Elite Sport has six models of palm cuts: Flash (Speed), Roll, Negative Roll (NRoll), Negative, Hybrid (2 Roll, 2 Negative) and Flat. The truly experienced goalkeeper will also want to choose the wrap design, based on how they use the outer edge of their hands: wrapped thumb, double wrapped thumb or side wrap.

JUNE 2023

ULTRA PRO LINE
